RAIL MEN ORDERED NOT TO QUIT WORK

LABOR BOARD TAKES CHARGE

Orders Union Chiefs and R. R.
Heads to Appear October
26 For Conference

BOTH SIDES AGREE

But Trainmen's Leader Points Out
Supreme Court Has Upheld
Right to Strike

(By The Associated Press).

Chicago, Oct. 21.—The government today moved to prevent a railroad strike and to enforce obedience by both unions and roads of decrees of the United States Railroad Labor Board, the board formally announcing that it had assumed full jurisdiction in the rail crisis and ordering the workers not to strike pending a conference of union heads and rail chiefs which it called for October 26.

A decision from this conference will not be announced until after October 30, the scheduled strike date, board members said, declaring that in this way a walk-out would be averted unless the unions defied the board's orders not to strike pending a ruling.

The action was taken following receipt from Washington of information that every interested branch of the government would back the board in its attempts to settle the rail difficulty, members declared.

Challenges Board's Authority.

While both carriers and unions promptly announced they would comply with the order citing them to appear before the board next Wednesday, W. G. Lee, president of the Brotherhood of Railroad Trainmen, one of the organizations which have called a strike, in a statement given out in Cleveland, asked by what authority anyone could compel a man to work and pointed out that the right to strike had been upheld by the United States supreme court.

At the same time, trainmen on the International and Great Northern, a Texas road, prepared to carry out their plans to strike tomorrow and the maintenance of way and the firemen's unions, representing 400,000 rail workers, announced here that they would join the proposed walk-out October 30. These two groups are part of the 11 unions, numbering three-fourths of the nation's rail employees, which had voted to strike but had not issued a strike call.

Despite the breach between the carriers and the five unions which have called a strike—the trainmen, the switchmen, the engineers, the firemen and the conductors—the Labor board summarily ordered the Great Northern and the International and Great Northern to resume operations at 6 p. m. tonight.

Labor Board's Last Move.

If the unions choose to carry through a strike, the board asked them to plan, members of the board said that the next move would have to come from Washington, intimating that today's action exhausted their attempts to furnish the teeth which the transportation act, creating the board, was said by many to lack. At the same time, it was pointed out that the transportation act gave the board power to cite the interested parties for alleged violation of its rulings, as it did today in calling next Wednesday's conference, but provides no penalties for violation of its decrees.

How Events Shaped Up in the Strike Situation Yesterday

(By The Associated Press)

Following are Friday's developments in the railroad strike situation:

Chicago—United States Railroad Labor board, announcing it has assumed jurisdiction in the rail crisis, ordered workers not to walk out and cited union chiefs and railroad heads to appear before it October 26 for a conference which board members said should avert a strike. Both sides announced they will appear for the conference.

Maintenance of way union, with more than 375,000 members, and stationary firemen, numbering 25,000 rail employees, announced an overwhelming strike vote and started preparation for a walk-out with other groups. Others of the 11 "standard" unions expect to announce their decisions Saturday or Sunday.

Heads of roads entering Chicago discussed plans to combat strike. Packers began storing all available meat supplies in preparation for strike.

Cleveland—W. G. Lee, head of trainmen's union, in a statement following Labor board citation, asked by what authority anyone could compel a man to work, pointing out that the United States supreme court has upheld the right to strike.

Washington—Possibility of President Harding exercising wartime powers to run roads in case of strike was discussed officially but such action was not contemplated as yet.

San Antonio—Trainmen on the International and Great Northern prepared to carry out plans for walk-out Saturday despite Labor board's pronouncement.

St. Louis—Heads of southwestern lines announced everything is legally possible will be done to operate roads if there is a strike.

Hazleton, Pa.—Anthracite mines pushed at full speed in preparation for strike.

The telegraphers and the clerks also held meetings tonight, but they went out of a preliminary nature, final action being expected tomorrow or Sunday.

The text of the Labor board's citation follows:

"Whereas it has come to the knowledge of the United States Railroad Labor board that a dispute exists between the following carriers and the following organizations of their employees:

(All railroads named in the wage reduction of July 1, embracing practically every line in the country, are listed here, and in addition the names of the big four brotherhoods and the Switchmen's union.)

"Whereas, information has come to this board that a conference was held in Chicago on the 14th day of October, 1921, between certain of the executives of said carriers and certain executives of said organizations of their employees, relative to the matters in dispute, at which conference no agreement was reached; and

"Whereas, immediately following said conference it was announced through the public press that the executives of said organizations of rail employees had issued a call sent out to the members thereof orders or written authority to strike and that a strike vote had been taken on the lines of the carriers mentioned; and

"Whereas the board's information is to the effect that said strike is threatened on two grounds: First, in opposition to the wage reduction in Decision No. 147 of this board; and second, on account of an unsettled dispute both as to wages and working conditions;

Must Appear at Hearing.

"Be it therefore, resolved, by the United States Railroad Labor board: First, insofar as said threatened strike is in opposition to and a violation of Decision No. 147 of this board, the above named labor organizations, and each of said carriers and are hereby cited to appear before this board for hearing as to the question whether or not they have violated or are violating Decision No. 147, and

"Second, that insofar as said threatened strike is the result of a dispute between said carriers and their said organizations of employees concerning wages and rules and working conditions, this board hereby assumes jurisdiction of said dispute on the statutory ground that it is likely substantially to interrupt commerce and said carriers and said organizations of employees are hereby cited to appear before this board at Chicago for a hearing of said dispute.

"The hearing on both of the foregoing matters is set for Wednesday, October 26, 1921, at 10 a. m.

"Be it further resolved, that the secretary of the board notify each of said carriers and its said organization of employees, both by wire and by mail, of the date of said hearing, and furnish each of them with a copy of this resolution.

"Be it further resolved, that both parties to said dispute are directed to maintain the status quo on the properties of said carriers until said hearing and decision."

BROTHERHOOD CHIEFS AGREE TO APPEAR BEFORE BOARD

Cleveland, Oct. 21.—Although the official orders citing the railroad brotherhood chiefs and the railroad executives to appear before the Railroad Labor board next Wednesday for a hearing on whether the wage reduction of last July has been or is being violated, and to consider the question of rules and working conditions which the unions contend are being violated by the carriers, had not been received, local brotherhood executives tonight said they will respond to the citation and be on hand for the hearing which starts at 10 a. m.

W. G. Lee, President of the Brotherhood of Railroad Trainmen, said:

"I am perfectly willing to recognize any order from the board or any other proper authority that will tend to prevent a strike."

Warren S. Stone, president of the Brotherhood of Locomotive Engineers, said, "I certainly will be there if ordered," adding that all the other chief executives of the railroad transportation organizations also "will go anywhere they are ordered to appear."

U. S. WON'T USE ITS WAR POWER

Unnecessary, and "Nation Is at
Peace," High Government
Officials Announce

FAVOR NEGOTIATION

Should It Prove Fruitless, However, Authorities Will Not Be Caught Unprepared

(By The Associated Press).

Washington, Oct. 21.—Use by the government of its war powers to avert the nation-wide railroad strike, while suggested in some quarters, will not be exercised, it was stated late today in high administration circles.

The impression was given that the administration feels other avenues are open by which a settlement may be reached. No indication was given, however, as to what course would be followed or what information the government may have had from the labor board.

War Powers Unnecessary.

It was made plain by high officials that they believed the use of war powers was not necessary, merely declaring that "this nation is at peace." Belief was expressed that amicable and definite results could be obtained through negotiation rather than by use of force such as involved in the exercise of war powers.

In the absence of any indication that the administration was considering mandatory control of the railroads, the action of the Labor board in citing union heads and rail chiefs to appear before it was interpreted here as showing that the board had received assurances from Washington that its supervision of the situation was unaffected by the recent developments. The board's intention, as understood here, was to determine whether the brotherhood chiefs or the railroad executives, or both, had not in fact already contravened provisions of the transportation act.

In higher administrative circles, it was reiterated today that it was "still the Labor board affair."

Although definite decision against invocation of war-time powers was reached today, no doubt was expressed in official quarters that adequate authority was existent and could be employed, should the period of negotiation prove fruitless. An amendment carried by the army appropriation bill of August 28, 1921, authorized the President specifically to take over transportation for the movement of troops, and to continue such control "in an emergency."

Supplementing this authority, it was said, were sections of the national defense act and other statutes enacted prior to and during the war.

To Protect Rail Property.

New York, Oct. 21.—Advertisements appeared in New York papers today reading:

"Guards wanted. American citizens to protect railroad property and right of way; \$5 per day and board; ex-soldiers producing discharge given preference." Applicants were directed to apply by mail to newspaper letter boxes.

Strike to Go On.

San Antonio, Texas, Oct. 21.—R. D. Francis, general chairman of the Brotherhood of Railroad Trainmen on the International and Great Northern railroad, announced tonight, following a meeting of members of the union, that the strike of trainmen on that road scheduled for tomorrow noon would be a 100 per cent affair.

STILLMAN DIVORCE TAKES NEW ANGLE

Mack Seeks to Make All Beneficiaries of Late James Stillman's Will Co-Defendants

(By The Associated Press).

White Plains, Oct. 21.—Members of the Rockefeller family interested in the \$47,000,000 trust fund created by the will of the late James Stillman today opposed efforts to draw them and all other potential beneficiaries into the divorce litigation begun by James A. Stillman, financier, against the former Fiftieth Street and Baby Guinness.

Through counsel, they argued against a motion which would have all potential beneficiaries show cause why they should not be made co-defendants with Mrs. Stillman and her year-old Guy, whose paternity Mr. Stillman impugned. This move was made by John E. Mack, guardian for Guy, who told Supreme Court Justice Morschauser at today's hearing that his purpose was to settle in the one divorce action both the paternity of the child and his right to share in the fortune left by the elder Stillman.

Ames E. Jenks, counsel for Mrs. Percy A. Rockefeller and Mrs. William Rockefeller, sisters of James A. Stillman, contended this would bring into the case a large number of persons with no interest whatever in the litigation save that under the will of the elder Stillman they were entitled to share at some time in the trust funds.

He declared the court was without jurisdiction to grant the motion inasmuch as the original divorce action, charging Mrs. Stillman with infidelity and branding the child illegitimate, was statutory.

"If they want a jury, we are satisfied," exclaimed Mr. Mack. "After all, the whip hand does not apply to a court of equity."

Mr. Jenks asked Justice Morschauser to use his head, not his heart. Mr. Mack suggested that both be used. He charged that the New York banker's sole object in bringing the suit was to have Guy judged illegitimate.

"If this child is found to be legitimate," he added, "for God's sake don't bring back this snail. The child has a right for his life."

BRITISH WAR HERO WELCOMED TO U. S.

Admiral Beatty, Commander of
Grand Fleet During War, Will
Attend Legion Convention

New York, Oct. 21.—His gold-branded cap cocked jauntily over his left ear, Admiral Earl Beatty landed in America today to receive a hearty welcome from thousands assembled on the historic Battery wall.

By his side was Rear Admiral Rodman, of the American navy, who had served on the North Sea during the war with the gallant fighter commanding the grand fleet. Admiral Rodman, honorary aide to the first sea lord, had journeyed down the harbor to meet his old comrade.

Greeted at the Battery by Lieutenant Governor Wood after a triumphal voyage up the harbor on the tug Vigilant, to which he had transferred at Quarantine from the Aquitania, Admiral Beatty motored up Broadway to the plaudits of thousands. At City Hall, he paused to hear Mayor Hylan welcome him to the city and then continued his journey uptown to the home of Marshall Field, his host while in New York. He leaves for Washington Sunday on his way to attend the American Legion convention in Kansas City.

Accompanying the admiral to America were his American wife, the former Miss Ethel Field of Chicago; their son, the Honorable Peter Beatty, aged 12 and Miss Gwendolyn Field, Lady Beatty's niece.

Venizelos Shares Plaudits.

While the admiral was taking leave of Captain Charles of the Aquitania at Quarantine, another demonstration was going on in honor of former Premier Venizelos of Greece, also a passenger on the liner. Half a dozen craft bearing Greeks circled the ship to the cry of "Zito Venizelos."

On the way up the harbor Admiral Beatty stood on the deck of the Vigilant, chatting with Admiral Rodman, the old comrade. Near him was his young son Peter, who announced emphatically that he liked America.

Turning to newspaper men the admiral told them he had not seen the United States for more than 15 years and expressed his pleasure in revisiting the country. Of the armament conference at Washington, which the Earl will attend for a short time in advisory capacity to the British delegation, he said:

"Everybody is hoping for great things. Certainly we are entering it with that idea."

Explaining that he would not be able to stay until the conference ended, Admiral Beatty said with a smile that it was necessary for some one to go home and keep shop.

Welcomed at the Battery.

When the admiral reached the Battery he found awaiting him a battalion of infantry in field equipment and "tin hats," a detail of marines and a police escort.

In an address of welcome Lieutenant Governor Wood said:

"You come at a time when the world is slowly emerging from the cataclysmic conflict of the World War, when the minds of statesmen are searching to find a proper solution to the varied and difficult domestic and international problems that confront each nation and when the absorbing problem of limitation of armaments and the establishing of universal peace is to receive the attention of the representatives of the allied nations in conference in Washington. On such a mission so potential in its possibilities for good to all nations, it is eminently fitting that Great Britain should send as an accredited representative one of her distinguished sons, the admiral of the British fleet. Your coming is a manifestation of the abiding friendship that exists between England and America."

SEEK WOMAN'S DEAD HUSBAND.

New York, Oct. 21.—Detectives tonight were scouring the city for an elderly man who last night registered at an uptown lodging house as "Rev. L. D. Durand" and who disappeared this morning a few hours before the death of a woman who was registered as his wife was discovered lying fully dressed on a bed.

Though there were no marks or violence on the body, police said the circumstances were suspicious. They said she may have been smothered by a coat which was found covered her head. She was about 60 years old.

PASTOR FOUND NOT GUILTY OF MURDERING A PRIEST

(By The Associated Press).

Birmingham, Ala., Oct. 21.—The Rev. Edin H. Stephenson was found not guilty by a jury here tonight on the charge of second degree murder growing out of the killing of Father James E. Cogle, Catholic priest, on August 11. The jury was out four hours.

TELEPHONE BOND ISSUE.

Albany, Oct. 21.—The New York Telephone company today announced that it would file a petition with the Public Service commission asking its approval of an issue of \$30,000,000 of refunding mortgage twenty year bonds to bear interest at the rate of not more than 6 1/2 percent a year.

The proceeds of the sale would be used for the acquisition of property and the extension and improvement of the company's facilities.

"If they want a jury, we are satisfied," exclaimed Mr. Mack. "After all, the whip hand does not apply to a court of equity."

Mr. Jenks asked Justice Morschauser to use his head, not his heart. Mr. Mack suggested that both be used. He charged that the New York banker's sole object in bringing the suit was to have Guy judged illegitimate.

"If this child is found to be legitimate," he added, "for God's sake don't bring back this snail. The child has a right for his life."

NON-POOLING DAIRYMEN FORM OWN ORGANIZATION

Utica, Oct. 21.—At a meeting of dairymen opposed to the pooling plan of the Dairymen's League Co-operative association here today, a charter for an organization of non-poolers, known as the Supreme Court Judge Claude B. Alverson, was received.

The papers of incorporation which were approved declared the purposes to be the "opposing and preventing of monopoly in the production and sale of milk; to encourage competition therein, and to protect its members and consumers of milk against monopoly or any unlawful combination."

LLOYD GEORGE WILL ATTEND CONFERENCE

Accompanied by Wife and Balfour,
He Expects to Reach Washington
Armistice Day

(By The Associated Press).

London, Oct. 21.—Prime Minister Lloyd George has decided definitely, it was stated today, to leave for Washington November 5 on the liner Aquitania, arriving in time. It is expected, for the afternoon session of the armament conference on its opening day, November 11. It is expected A. J. Balfour of the British delegation and Mrs. Lloyd George will accompany the prime minister.

The Premier's plan is naturally subject to change if unforeseen circumstances should arise. He expects to be absent five weeks, including the time required for the trip.

The Aquitania is due to arrive at New York the morning of November 11, and it is believed in some quarters here that the opening of the conference may be postponed until the afternoon of that day to admit the British delegates being present when the sessions begin.

Most of the other members of the entourage will leave England next Wednesday.

Washington, Oct. 21.—Lacking official notification of Premier Lloyd George's intention to sail for the United States on the liner Aquitania due in New York on the morning of November 11, state department officials have not considered altering arrangements for the opening of the armament conference so as to permit the British premier to be present.

As now planned the first session will be early in the day of November 11. There will be no separate connection with this meeting, which will adjourn immediately as a special mark of honor to the American unknown dead, to be buried at Arlington cemetery on that day and also out of respect to the Allied and American celebration of November 11 as Armistice day.

While no official word was definitely given, it is understood that the British premier will be present at this formal opening of the conference, it was indicated that any alteration of the time now set for the conference meeting was improbable, as it would derange all the plans for the ceremony connected with the burial of the unknown dead.

Since adjournment of the arms conference will be largely because of the national tribute to the unknown dead, it was regarded as doubtful that the meeting of the delegates would be deferred until afternoon, it being pointed out that adjournment in advance of the Arlington ceremonies would be more a mark of respect to the dead than a meeting and adjournment late in the day.

In the actual opening of the conference, when President Harding will deliver his address of welcome and probably sound the keynote of the discussions to follow, will be on November 12 and Mr. Lloyd George should be in ample time for that session.

Ruth Confirms the Report.

Saratoga, Pa., Oct. 21.—Babe Ruth's All Stars were defeated today by a baseball team composed of local players. The score was 8 to 6.

Ruth confirmed late tonight the report that he had abandoned his barnstorming tour. He said he had reached an agreement with Colonel Huston of the New York Yankees.

IRISH PEACE SHIP 'BARELY AFLOAT'

Unsuccessful Conference Yesterday Leaves Negotiations Hanging By a Mere Thread

(By The Associated Press).

London, Oct. 21.—The negotiations between British officials and Irish delegates today were a wearying struggle, broken off and for a time it seemed possible that the Sinn Fein delegates would return to Dublin tonight, it was learned after today's adjournment was taken. The Irish delegates still were apprehensive this afternoon that the session scheduled for next Monday might be the last.

As progress at all was made at today's meeting, it was said, a continuation of events, bringing about what practically amounted to an impasse. The government delegates, according to Sinn Fein sources, took violent exception to Eamon de Valera's message to the pope, and thus, with other subjects, including that of Ulster, which were down for discussion, left the negotiations hanging by a mere string.

The Irish delegates were very much depressed at this afternoon. One of the Irish delegates said gloomily:

"The ship is barely afloat."

There are no plans for any meetings between members of the two delegations over the week-end. Consequently the situation must hang fire, it was understood, until Monday's session, which will be faced with the decision of whether it is to be "peace or war."

SHRINKERS GATHER AT ALBANY.

Albany, Oct. 21.—Delegations from nearly every Shrine temple in the northeastern part of the United States were in Albany today for the centennial of Cyprus temple, of Albany, of the Ancient Arabic Order of Nobles of the Mystic Shrine. Among the 5,000 guests was Ernest A. Cunniff of Savannah, Ga., Imperial potentate of all the Shrines in North America. Parade and patrol drills this afternoon and the ceremonial of the local temple tonight were the high spots on the day's program.

RUTH REGRETS; GIVES UP TRIP

Home Run King of Yankees Sorry
He Violated Rules of Organized Baseball

A CHANGE OF HEART

Babe Will Go to Chicago and Personally Apologize to Commissioner Landis

New York, Oct. 21.—Babe Ruth, home run king, has abandoned his barnstorming trip and has expressed regret at having violated the rules of organized baseball in engaging in post-season exhibitions. Colonel T. L. Huston, part owner of two New York Yankees, announced tonight on his return from Saratoga, Pa.

Colonel Huston said the home run slugger had suffered a change of heart and told that he had been badly advised in playing exhibition games in opposition to the rule which Judge Kenesaw Mountain Landis, as commissioner of organized baseball, had to enforce.

"I am one of those who consider the rule a bad one," Colonel Huston added, "and unfair to players like Ruth. In talking with him today at Saratoga, I promised to use my best efforts to have the rule rescinded."

"I also promised to intercede in his behalf with Judge Landis to have the punishment made as light as possible, in view of the fact that he feels now that he made a mistake."

Ready to Stay With Yanks.

Ruth told him, Colonel Huston said, that he had been offered big money to play independent baseball next summer if Judge Landis imposed a long sentence. He is willing, however, to forego this and remain with the Yankees if the difficulty can be straightened out.

Ruth's barnstorming trip was reported to have been a financial disappointment, the guarantee of \$1,000 a day offered to him by the promoters being barely exceeded by the gate receipts.

Judge Landis has not yet announced what punishment he would mete out to Ruth.

Ruth, Colonel Huston added, will visit Chicago within the next few days and personally apologize to Commissioner Landis for defying the commissioner's order.

The three other members of the Yankee team who took part in the tour have also decided to end their exhibition activities. They were Bob Meusel, outfielder; P. J. Flery, recruit pitcher; and Tom Sheehan, a young twirler.

Colonel Jacob Ruppert, Colonel Huston's partner, declared tonight that emissaries are already in Chicago interceding with Commissioner Landis in Ruth's behalf. One of them is Edward G. Barrow, business manager of the Yankees, and another is said to be a well-known sporting writer from this city.

Ruth Confirms the Report.

Saratoga, Pa., Oct. 21.—Babe Ruth's All Stars were defeated today by a baseball team composed of local players. The score was 8 to 6.

Ruth confirmed late tonight the report that he had abandoned his barnstorming tour. He said he had reached an agreement with Colonel Huston of the New York Yankees.

Today's Football Games Best and Most Varied Yet

Revival of Almost Forgotten Classics and Clash of Undeclared Rivals
Promise to Furnish Afternoon of Play Which Will Be
Epoch-Making

New York, Oct. 21.—Tomorrow's football games on eastern gridirons offer the best and most varied program of the autumn to date. Inter-sectional contests, revival of almost forgotten classics, and the clash of undefeated rivals, promise to furnish an afternoon of play which will be epoch-making in the annals of the sport.

The University of Chicago eleven renews eastern relations after a lapse of some years in meeting Princeton in the fair of the Tiger.

Of much greater antiquity and continuity is the Yale-Army series which will be renewed after an eight year break, when the West Point cadets play the Elis at the Yale Bowl.

Harvard will entertain the Penn State team, undefeated since 1910, at the Harvard stadium, and another thrilling battle is forecast. Both teams have made an excellent showing this season.

Syracuse, with a remarkable team for both weight and speed, will invade the University of Pittsburgh field intent upon wiping out the 7-7 tie of a year ago. The upstate collegians have rolled up a total of 133 points in four games and have not yet been scored upon. Pittsburgh has

been defeated by Lafayette and scored against by West Virginia and Cincinnati University.

Cornell will face Colgate in a contest which also promises to give a real line on the ability of Gil Dobbie's pupils. Cornell has been running up large scores this season, having a total of more than 200 points to date.

Colgate has played impressive football, notwithstanding the 19-0 defeat by Princeton, and the 21st annual struggle between the Central New York rivals is likely to be productive of the hardest kind of a game.

Colgate has defeated Cornell in four out of the last six contests and the Ithaca collegians are all set for a retaliatory victory.

Dartmouth and Columbia will figure in another New England struggle.

At Clinton, Hamilton will have the Hobart college eleven from Geneva as its opponent. Although Hamilton showed up very well in the Williams game, the R. F. I. contest was a disappointment to the Clinton clan.

Coach Berry has been working with excellent material and tomorrow's gridiron contest is expected to reveal a Hamilton team with winning possibilities.

STRIKE SITUATION DEPRESSES MARKET

Early Declines Partly Retrieved
Later, When Mexican Petroleum Takes Lead

New York, Oct. 21.—Rejection by the railroad union of the plans proposed by the Railroad Labor Board to avert a strike effected declines of one to two points among transportation in the first half of today's stock market session.

These losses were partly retrieved later when Mexican Petroleum became the leader of a drive against the shorts and announcement came from Chicago that the brotherhood chiefs and railroad executive had been cited to appear before the Labor Board next week.

Early reversals extended to steels, rubbers and leathers, the former being rendered more vulnerable by the poor statements of earnings issued by the Lackawanna and Republic companies. Equipments pursued a contrary course, however, and motors strengthened with utilities and numerous merchandising shares.

Popular oils forged ahead almost from the outset, foreign issues leading. Even Royal Dutch, which recently lost ground on selling attributed to Dutch interests, ignored the proposed senatorial investigation into its activities here.

Mexican Petroleum registered an extreme advance of almost eight points and all but a fraction of this was held as the finish, General Asphalt and Houston also showing substantial support.

Buying of Liberty and Victory issues, all at moderate to substantial gains, featured the later trading in bonds. Domestic rails reflected the heaviness of stocks, but foreign issues were devoid of special feature.

U. S. OFFICIALS RECEIVE THREATS

(By The Associated Press).

Paris, Oct. 21.—A plot by French Communists to take retaliatory measures against all American officials in France in event of the execution of Nicolo Sacco and Bartholomew Vanzetti, the men convicted in a United States court of murder, was revealed last night when it became known threats had been made to blow up the offices of the American consular commission and the passport bureau.

Threatening letters warning of reprisals in the event of the death of the two men have also been received by the American consul general, Alexander M. Thackara, and the American consuls at Marseilles, Bordeaux and Lyons. In consequence, strong forces of police are guarding the new building near the Place de l'Étoile, occupied by the consular commission and also the consulates in the Rue des Italiens. The police in Bordeaux, Lyons and Marseilles are guarding the consulates there.

The letters to the passport and reparations officials were not signed, but a letter received by Mr. Thackara last evening was signed by the Communist organization in a small town near Lille. It said that retaliatory measures would be taken against

London, Oct. 20.—According to a dispatch to the Exchange Telegraph from Paris, several of the cabinet ministers were killed in Lisbon during the disorders of Wednesday, including Antonio Granjo, premier and minister of the interior, and Machado Dos Santos, founder of the Portuguese government and once its president.

A Reuters dispatch from Madrid quotes a Lisbon report as saying that Jose Carlos Maia, former minister of marine and of the colonies, and Carlos Silva also were assassinated, and that Cunha Leal, former minister of finance, was wounded.

LYCEUM COURSE AT MILFORD.

Tickets Now on Sale for Series of Three Entertainments. Milford, Oct. 21.—The village is now being canvassed for the sale of lecture course tickets and the students, who have the tickets in charge, are meeting with good success. The course is given under the auspices of the Milford High school this year and three high class numbers have been secured from the Royal Lyceum bureau of Syracuse. The entertainments will be held at the churches, the first in the Methodist Episcopal church. The course is outlined by the committee in charge is as follows:

The first number will be Mr. and Mrs. Parmenter, exponents of dramatic art. Believing in the art of the drama and earnestly endeavoring to place it on a higher level, Mr. and Mrs. Parmenter bring to the Lyceum platform a program of dramatic plays in the form of playlets and abridged versions of standard plays by the world's greatest authors. Interspersed throughout are fitting musical numbers.

Edmond Vance Cook, a well-known lecturer, will deliver one of his high class lectures as the second number on the course. Mr. Cook comes highly recommended as a lecturer for above the standard.

The American Glee club is the concluding number on the course and consists of quartette singing, three soloists, xylophone, banjo, mandolin, four saxophones, reader and pianist. This organization has had four years experience as a quartette and has thus acquired a splendid ensemble of voices.

THE COMMUNITY CHEST.
Unquestionably the most important
purely local subject now under
consideration in Oneonta is the Com-
munity Chest. Meetings have been
held, conferences called, the work of
the various organizations are being
outlined in public print and citizens
upon the streets and in their homes
have discussed the proposition. If
they have not yet decided whether
they do or do not favor the plan and
whether they are ready to unite in
the community movement, they at
least have had opportunity to hear
the pros and cons presented. It is
a subject worthy the thoughtful con-
sideration of all citizens and it is per-
haps not amiss to summarize the
chief arguments advanced:

For the Community Chest:
The chief argument for the chest
is one of efficiency, based upon the
following:
1. Because it enables the contribu-
tors to decide at one time how
much they can give, this year to sup-
port health and welfare work, ap-
portioning the total amount to vari-
ous organizations if they wish.
2. Because each organization must
prepare and strictly adhere to a bud-
get of expenses modified, passed upon
and regularly audited by the Com-
munity Chest Committee, thus as-
suring that the money is needed, will
be well spent, and that each organi-
zation gets all it needs and no more.
3. Because contributors receive the
guarantee of the men and women
connected with the Community As-
sociation, the Chest, and the campaign
that all the organizations are worthy
of support and that the work of one
organization will not overlap on that
of another, through co-ordination in
the Community Association.
4. Because payments and collections
are made through one agency,
enabling executives of organizations
to give entire time to their work and
saving time and worry they otherwise
give to problems of income.
5. Because it reduces the money
spent in ten campaigns to that spent
in one.
6. Because it saves the time and
energy of those who canvass, as well
as of contributors.
7. Because through a contingency
fund other worthy causes needing
small amounts will be cared for, thus
eliminating subscription papers and
promissory solicitations.

In Opposition:
On the other hand those opposed
to the plan are saying:
1. That with millions unemployed,
business stagnating and a railroad
strike impending the present is no
time upon which to embark upon
such a large and comprehensive plan
for social betterment, far ahead of
that of many cities of much larger
population.
2. That many citizens favor giving
their money direct, as absolute need
is made clear, and for actual relief
rather than to be handed to officials.
3. That personal interest in hu-
manitarian work is best maintained
when the administration is not de-
legated.
4. That a Community Chest should
be administered by representatives
of the givers and the budgets fixed by
them and not by representatives of the
organizations supported.
5. That the chest is too compre-
hensive, that it should have embraced
only established organizations, and
only those with a record of accom-
plishment.
6. That it has not yet been demon-
strated that a chest overcomes the
objection that fixed liberal budgets
often result in lavish expenditures
with little appreciation of obligation
for strict accountability to subscrib-
ers.
7. That many existing organiza-
tions, the churches and American
League for illustration, can do work
projected, without appropriations for
new organizations.

Closing Reflections:
These are not all the arguments on
either side, but at least they give an
understanding of the trend of thought
of citizens. While there is a dis-
tinct line of cleavage, it is pleasant
to note that in all the discussion there
is little criticism of the organizations
themselves and apparently none of
the good intentions of those who have
devoted so much of time and effort
to the project. However individuals
may differ now it is a pleasant re-
flection also that whatever the out-
come, they will in the end, come to-
gether and, with a better understand-
ing of the civic needs, work together
in unity for the common good. Any-
thing else would be contrary to the
history and traditions of the city of
Oneonta.

MORE PARCELS ARE HANDLED.
Count at Post Office Shows Increase
Over Last Year.

Figures announced by Postmaster
Charles J. Benne for the annual par-
cel count of the local post office, held
during the first two weeks in October,
indicate that a much larger number
of parcels is handled by the office this
year than last, over 1,400 more pack-
ages going through the office during
the last period than was the case in
1920. The county also shows that
more parcels are mailed than are re-
ceived from the outside for delivery.
During the test, which lasted for 13
days, a count was kept of every par-
cel mailed or received for delivery.
This year 6,859 parcels were mailed
and 5,879 received from other places.
The figures for last year were 6,351
mailed and 5,068 received.

COMMENTS OF THE PRESS

White Men or Japs in Australia.

Lord Northcliffe was indulging in
no idle dream when he told Australi-
ans that if they wished theirs to re-
main a white man's country, they
would better get busy at once and
promote immigration. Occupation
would obviously solve Japan's prob-
lem of overpopulation that the solv-
ing of England's problem of the same
nature in the same way seems the
only possible course for them to take.
—(Philadelphia Evening Ledger).

Mails Will Be Distributed.

In 1893 there was a man in the
White House named Grover Cleve-
land. He said that the mail trains
should run in spite of Debs or any-
one else. He sent the United States
regular troops to Chicago. The trains
moved, the strike failed—as it de-
served and Cleveland was called a
despot and tyrant by loud-mouthed
demagogues. That was Cleveland's
greatest public service. He showed
that the constitution and the laws
meant something. We have not the
slightest doubt that President Harding
will take the same attitude. The
mails will be forwarded if it requires
the army, the national guard and the
American Legion once more in line
to accomplish the purpose.—(Phila-
delphia Inquirer).

Return of the Cattle Rustler.

The president of the Kansas State
Live Stock association, George T.
Donaldson, upon whose herds in
southern Kansas pastures cattle rust-
lers had been heavily raiding, an-
nounced that he had been successful
in the hunt of the thieves, that
the cattle industry "cannot bear the
pressure of economic conditions, plus
\$15 a quart for bootleg whiskey, \$1-
\$1.50 a night for crap games at \$15 a day
hotels, without something happening."
From this he would have us infer that
high life has struck the prairies and
that cowboys trying to keep up the
pace have turned to cattle rustling.—
[New York Herald].

Bulgaria's War Criminals.

Bulgaria is having a few war trials
of her own. They are not like the
whitewash proceedings at Leipzig, for
the head of the present Bulgarian
government Stambolisky, was thrown
into prison by Ferdinand because he
opposed Bulgaria's union with the
Treaty powers in 1918. The peasant
ministry wants to convict and punish
the officials who brought on a great
national disaster.—[New York Trib-
une].

Grey Re-Enters Public Life.

Americans will be interested in the
return of Viscount Grey to public
life. It was supposed that the poor
health of the former foreign minister
would make it impossible for him to
leave the retirement in which he has
lived for many years. But he is tak-
ing an active part in the discussions
in the house of lords and once more
giving evidence of the statesmanlike
qualities which formerly won for him
a place of distinction among the Bri-
tish leaders.—[New York Sun].

Boss of the Lot.

Lloyd George, it is said, is on top
again and nothing can dislodge him.
There will be no general election in
Britain. There will be no new gov-
ernment with the Welshman left out.
The news might have been anticipated
months ago, even when the predictions
were commonest that the Bri-
tish premier was about to go into
exile. For Lloyd George is politics
boiled down, concentrated, mobilized.
Just as Napoleon was military genius
99 per cent proof. These are the
fiery days of world politics and the
fittest for the purpose alone survive.
—[Little Falls Times].

Going North for a Lesson.

When the United States, with much
less untilled land than her northern
neighbor, wakes up to the necessity
of selecting immigrants at the source
with the scrupulous care observed by
Canada in the present emer-
gency immigration law will be re-
minded that the country will be bet-
ter off.—[Waterbury Standard].

Dairymen's League Announces No-
vember Figures Will Not Be Higher,
Owing to General Depression.

The price paid for fluid milk will
be the same for November as for Oc-
tober, \$3.27 per hundred pounds, ac-
cording to an announcement made
yesterday by C. W. Stocum, president
of the Dairymen's League Cooperative
association. This is for three per
cent milk at the 201-210 mile freight
zone with the usual butter fat and
freight differentials.
Mr. Stocum stated that the board
of directors after lengthy discussion
decided not to increase milk prices
for November because of industrial
conditions. Milk production costs
are greater in November than in Oc-
tober and under normal conditions
the price would be increased, but con-
sidering present industrial depression
the milk price is considered fair.
Class 2 has been subdivided into
Class 2A and 2B. Milk sold in
Class 2A, that is milk made into soft
cheeses, will be sold for \$2.50 per
hundred pounds, an increase of 25
cents over the October price. Milk
sold in the manufacture of ice cream
sold in Class 2B, that is milk used
in the manufacture of ice cream
and cream, will be sold for \$2.25 per
hundred pounds, the same as the
October price.
The price of Class 3 milk, which is
used chiefly for sweetened condensed
and evaporated milk and for cheeses
of the hard type, will be determined
by market quotations during the
month on butter, adding 40 cents a
hundred to this butter price, as in
October.
As usual milk used to manufacture
butter and cheese, or Class 4 milk
will be sold according to prices based
on market quotations on butter and
cheese. The farmers received the
average or pooled price resulting
from the sale of all four classes of
milk.

AUTOMOBILE PLATES FOR 1922

Otsego County Numbers Run From
448-201 to 453-900 for Pleasure
Cars—Designations for Commercial
and Dealers' Numbers and Motor-
cycle Plates.

Albany, Oct. 22.—Otsego county has
been assigned 5,700 automobile license
plates for pleasure cars for 1922, num-
bered from 448-201 to 453-900, ac-
cording to an announcement made to-
day by the State Tax commission.
With this information in mind, police,
state troopers or others interested can
tell at a glance that any car carrying
any of these numbers next year was
registered from this county.
This assignment of distinctive num-
bers is in accordance with the new
method of distribution devised by the
tax commission, whereby each county
of the state will have its special series,
making easy immediate identification
of the source of registry of any car.
The commission believes this will be
of some assistance in locating stolen
cars and identifying violators of the
highway or local traffic laws and reg-
ulations. Police and state troopers
will be supplied with full informa-
tion as to the distribution by the com-
mission.

Next year commercial vehicle li-
censes in this state will be numbered
from 300-000 to 345-000, of which this
county will have from 372-401 to
373-300. Omnibus licenses will run
from O-50000 to O-55500 and the
trailer licenses from 993-000 to 997-
350, this county being assigned
O-61001 to O-61850 and 995-151 to
995-175 respectively. Motorcycle li-
censes have been assigned to the coun-
ty from 17001 to 17500.
The first 2,000 pleasure car numbers
have been reserved for state-owned
cars. Aside from this, it is announc-
ed, there will be no so-called low num-
bers reserved for special distribution
as in the past, and the latter series,
developed in the last few years in or-
der to make possible additional low
numbers, will also be done away with.
Dealers plates will be taken from the
numbers running from 2-001 to 2-999.
In New York city and Albany and
Erie counties the plates will be dis-
tributed as in the past from the offices
of the Automobile bureau. County
clerks will make the distribution in all
other counties of the state. Plates
will be sent out from Albany in time
to be distributed after November 15,
but may not be used on cars before
January 1, 1922.
The following table indicates the dis-
tribution of pleasure car numbers to
each county in this vicinity. By re-
ferring to it, anyone can determine
the source of registry of any such car
after January 1.

DAIRY FARM VEGETABLES

Nation Wide Meeting of Growers Next
Month Will Interest Farmers of
Empire State.

Albany, Oct. 21.—According to the
representatives of the Vegetable
Growers association of America who
are here to arrange for the meeting of
that body in the Washington Armory,
November 1 to 5, the ranks of the old
dime vegetable farmer are being
greatly strengthened. New York
state by the addition of many dairy-
men and general farmers who raise
vegetables as cash crops. For this
reason a program committee has
arranged that the meeting of the na-
tional body shall be of special inter-
est to the 35,000 New York farmers
who raise peas, beans and sweet corn
for canneries; peas for marketing;
cabbage for kraut factories and ship-
ment; cucumbers for pickling stations
and shipment, and all the other veg-
etable crops which have been found
desirable for the balanced dairy or
general farm.

Growers of canning crops from such
widely separated regions as Maryland,
Indiana, and New York have found
many common problems, even
though climate and other conditions
vary so much, and two half-day ses-
sions have been set aside for the dis-
cussion of these problems.
Growers associations and the farm
bureau of the Capital district are
planning exhibits of vegetables and
vegetable products and numerous ex-
hibits of equipment and supplies are
expected.

Visitors are to be entertained with
a banquet on Thursday evening of
the week, and the convention will
close with a trip to New York city
under the guidance of the state de-
partment of farms and markets to
study marketing at first hand, be-
ginning at midnight, November 4th.
Special railroad rates from all parts
of the East and Middle West have
been announced.

HONEYMOONING IN AMERICA

New York, Oct. 21.—Thousands of Greeks gave Elliphiheros
Venizelos, former premier of Greece, a rousing welcome when he
landed today from the Aquitania with his bride. The elderly states-
man said his visit had no special significance.
"I am coming to make a pilgrimage to America," he said, "and
to enjoy a rest."
After a short stay in New York he will go to Santa Barbara, Cal.,
to remain until after Christmas. He will try to visit every state in
the union and later go to Canada. He is also considering visiting
some of the South American countries.

U. C. T. MEET

Affair One of Best in History of One-
onta Council—Voted to Visit
Binghamton Nov. 19.

Binghamton, Nov. 19.—The meet-
ing of Oneonta council of United Com-
mercial Travelers, held last evening
in Odd Fellows' hall, was one of the
largest and most enjoyed in the his-
tory of the local organization, over 50
members being present. A business
meeting was followed by the indica-
tion of a class of eight candidates. A
fine luncheon was served under the
direction of Ray Kellam and the whole
affair was enlivened by songs led by
Jerry Wilson.

It was voted by the council to ac-
cept the invitation extended by Pat-
ter City council of Binghamton to
visit them on Nov. 19th. The degree
team of the Oneonta council will ex-
emplify the secret work of the order
at that time and it is expected that
a large number of "travelers" will make
the trip. A committee, composed of
George C. Crandall, A. Spencer Rowe,
H. D. Weston and Tracy Bard, was
appointed to make arrangements for
the big event.

Oneonta Girl Active at Smith College.
Miss Gladys Platter, daughter of
Mrs. Mae Platter of 25 Grand street,
again took the lead as premier violin-
ist in the Clarke House Kitchen jazz
"Symphony" orchestra which per-
formed Wednesday evening in the
John M. Greene hall for the benefit of
the \$4,000,000 fund.

The jazz orchestra was such a suc-
cess at its first performance two
years ago that the performance was
repeated during the Easter vacation
for the benefit of the \$4,000,000 fund
at the Hotel Plaza, New York city.
The instruments were made up en-
tirely of kitchen utensils. Huge
baking pans and floor mops were uti-
lized for bass viols and cellos, while
corn-poppers made excellent violins.
The "music" was produced by sing-
ing through kazoos.
"Symphony" was so touchingly
rendered by Miss Platter on her
"Stradivarius" that her audience was
reduced to audible "sobbing." The
reputation of being the most talented
house on the Smith campus, which
the Clarke House holds, has been ac-
quired in large part by the numerous
dramatic appearances of Miss Gladys
Platter.

POSTAL SURVEY OF CITY.

Shows General Compliance With Rules Regarding Numbers and Mail Boxes.

In accordance with an order issued by Postmaster General Hayes, a survey of the city was made Wednesday by the local post office to secure a list of all houses not properly numbered or which have no receptacle for the delivery of mail. The survey was made by the mail carriers and a report made to Postmaster Hayes.

Mr. Beams was well pleased by the result of the survey, which showed that, in the residential sections particularly, the vast majority of houses are properly numbered and provided with boxes or other receptacles for the mail, one of the carriers reporting no delinquents on his route. Conditions in the business section are not so satisfactory. Many stores and apartment houses have no numbers displayed and others are using the old numbers. Most of the business blocks have boxes on the second floor for the use of tenants, although there are a few delinquents in that respect.

The post office is unable to prosecute for failure to observe the departmental regulation in regard to numbers and mail receptacles, but every effort will be made by Postmaster Beams, by means of personal solicitation and letters, to see that the regulations, which are not irksome, are observed. These regulations exist not only for the benefit of the carriers but are a help to householders in securing more efficient delivery of mail.

Plain Talk.

Some well meaning people think that to talk too plain. Others tell me to go to it and that in these degenerate days of gun-men, fly-by-night-get-rich-quick-fraud-sharpers, who are working on gullible people to get them to kiss their money good bye one can't talk too plain, in order to wake 'em up. General Sheridan once said that he had seen the time when a good round oath was worth a regiment of men. Wouldn't it be a darn good thing to get a regiment of men talking as to how I safely helped Sam Field, of the D. and H. R. R. shops, to safely get a nice home of his own and be able to burn his mortgage, by simply placing \$12.30 with me monthly, for 125 months? I've been unsafely doing this kind of work for little fellows to the tune of several million dollars and am now thus safely rolling up four nice mortgages. It's straight ahead and well meaning people would fully realize how I give little fellows a fair chance and square deal, in a live and let live game, they'd sure say, go to it and wake 'em up. I'm the safe and sane Oneonta Building and Loan association. advt. 11

BARN NEAR COUNTRY CLUB

DESTROYED BY FIRE EARLY LAST EVENING—CONTENTS SAVED.

Large Structure Formerly Owned by Joshua Bull and Now Owned by David Hollister—Insurance of \$3,000 Partially Covers Loss.

Fire early last evening completely destroyed the large hay and stock barn on the Josiah Bell place, adjacent to the Country club grounds, recently owned by J. Earl Hay, but now the property of David Hollister, formerly of Little Falls, but now residing at Fly Creek. Practically all of the contents were removed, but it was impossible to save the structure, the upper loft being all ablaze when the fire was discovered by Mr. Hay, shortly after 10 o'clock.

When an alarm was sounded by the city system, the reports were that the fire was at the Country club and members and others had visions at once of clubhouse, the center of so much activity and enjoyment during the summer seasons, in ashes. Many inquiring at this office by phone were relieved when The Star was able to inform them that the club house was not in danger, though all regretted the misfortune of the owner of the barn.

The cause of the fire is a mystery. Mr. Hay had been in the basement of the barn engaged in milking two cows and after carrying the milk into the house he returned to the barn. On emerging from the house the upper part of one section of the barn and one little used was all ablaze. The firemen were quickly given and he, with others arriving at the scene, hurriedly removed the larger part of the contents.

Within the building were three motor cars, one owned by Mr. Hay and two by E. V. Moffatt, who occupies a portion of the residence, two cows, a pig, chickens and even the mother and four kittens were all removed. There remained in the building a shreder, which had been left after the threshing had been done a few days since, some straw and a little hay together with a few tools which were destroyed.

The cause of the fire is a mystery. No one had been in the portion of the building where the fire started, so far as known in several days and there were no electric wires in the structure. It is suggested that a hobo might have crawled in the building but none had been seen around the building and none were observed afterward.

The city firemen responded to the alarm and went to the scene but the barn was nearly half destroyed on their arrival and with no water nearer than the creek the men were unable to do any effective work on the fire. However they remained and kept a watchful eye on the Country club house and other nearby buildings. The wind carried burning embers but at no time was the club house considered in danger.

The building was insured for \$3,000. Mr. Hollister will be notified of the fire this morning, it being impossible to reach him last evening.

LARGE AUDIENCE EXPECTED

To Hear Dr. Hawn and Other Speakers Tell of the Needs of a Community Chest in Oneonta.

An audience that will tax the capacity of the Oneonta theatre to hear the address by Dr. Henry Gaines Hawn is expected at the community chest in Oneonta.

Dr. Hawn won popularity and many admirers of his oratorical genius last January, when he addressed a meeting that packed Municipal hall during the Chamber of Commerce campaign. His speaking engagements are usually made far in advance because of demands made upon his time by the Hawn School of Oratory at Carnegie hall, New York, and the committee considers itself extremely fortunate to secure Dr. Hawn for a return engagement at this time.

A short concert of sacred music by the Oneonta theatre orchestra under the direction of Albert J. Smadone, will open the meeting at 2:30 o'clock. The orchestra generously offered the use of their services and O. S. Hathaway the use of the theatre for the meeting.

The story of how the Community Chest was started, the reasons for combining ten campaigns in one through this plan, and what the health and welfare organizations participating in it are doing for Oneonta, which they base their needs for support, will be fully, but briefly, explained at the meeting.

CHORAL ART SOCIETY FORMED

Organization Elected and Officers Elected at Meeting Last Evening—Society to Put on Oratorios and Operettas.

At a meeting in Municipal hall last evening of vocalists and others interested in good music in the city the organization of a Choral Art society was effected and officers were elected for the ensuing year. The meeting was well attended and much interest was shown in the formation of the society, whose purpose it will be to raise the level of music in Oneonta by putting on oratorios and operettas and bringing famous artists to the city.

The following officers were elected: President, Jerry Wilson; vice president, Mrs. David H. Miller; corresponding secretary, Byron Chesbro; financial secretary, J. J. Bowdish; treasurer, Mrs. Harry Finch; director, Prof. J. P. Perry. The society will meet every Friday night in Municipal hall. There will be two classes of members. Vocalists who actually take part in the work of the society will be called active members and the honorary members will be those patrons of music who do not sing themselves but who wish to further the cause of good music in the city.

No definite plans have yet been made by the society but it is expected that concert work will be studied first and that later oratorios, operettas, and other musical projects will be essayed. It is hoped to secure artists of national reputation to sing the leading parts in the more pretentious offerings.

There are many good voices in the city and the need has long been felt for an organization which would utilize them for the general good of the community. Prof. Perry, who will direct the activities of the organization, has had much experience in the formation of choral societies and that he believes that he has the material at hand to create a musical organization second to none of its kind should be a source of much gratification to music lovers.

COMMUNITY HOUSE PROJECT

City's Health and Welfare Activities Centered There—Need \$5,000 for Maintenance—Boy and Girl Scouts Work to Share in Cost.

With five organizations given headquarters in the Community house at 17 Ford avenue and four health clinics started as a result of the impetus given to this work, officers of the Oneonta Community association believe that its first six months' activities display a decided usefulness to the community.

Co-ordination of all health and social welfare work through the agency of the association has been made really effective through the fitting over of the old library property, its interested members maintain, and through the Community Chest they believe that this co-ordination, which aims to safeguard against any overlapping or duplication of effort in this work, will be carried out with efficiency.

The Community house committee believes Oneonta will respond to its request, made through the Community Chest, for \$3,000 for expenses of maintaining and future furnishing of the house and property, which houses the American Red Cross Family Social Work association, the Tuberculosis committee, the Boy Scouts and Girl Scouts, in addition to the baby, dental, tubercular and venereal disease clinics, and the many other uses for which the house has been found a real convenience.

Flitting out headquarters in the building in the rear of the Community house property has been one of the chief accomplishments of the Boy Scouts the past year. Scout Commissioner Wilbur H. Lynch and Scoutmasters DeLaMater, Engler and Wheeler have made considerable progress in training the 100 boys under their charge, and the Scout movement in Oneonta the boys of today into the loyal and useful citizens of tomorrow under the guiding influence of older men, is doing a commendable service in Oneonta, in the belief of its supporters. To carry on this work the next year the Scout organization is asking for a budget of \$300 through the Community Chest.

Girl Scouts have just been organized under the leadership of Mrs. A. F. Mills and Miss Nina Johnson, and the interest shown by the girls indicates that it soon will rival the boys' organization in activity and useful service to the community. To carry on this work, \$250 is needed, so its leaders are asking Oneontans to support this work among the girls of the city, as well as among the boys, through the Community Chest.

tired in Meteor navy blue satin and

gratulations, a beautiful luncheon was
served and Mr. and Mrs. Hall depar-

SPLIT THE DIFFERENCE

Does the Jury in the Suit Brought by Lewis Against John H. Todd to Recover \$375, alleged to be due on the sale of the farm on South Side, which was continued before Justice Tutthill and a jury at Cooperstown yesterday, the case was submitted to the jury late in the forenoon, the evidence of the defendant being brief, consisting in general of a denial of any obligation, the contract involving no obligation according to his view. Early in the afternoon the jury returned with a verdict of \$185 for the plaintiff.

Justice Tutthill in his charge told the jury that if they found that the plaintiff was entitled to recover they should return a verdict for \$375, it being shown that the farm sold for \$7,400, \$100 additional being paid for lay in the barn. If entitled to any payment the plaintiff should receive 5 per cent of the \$7,400. The jury evidently agreed upon a compromise verdict, "splitting the difference" and awarding the plaintiff just half of the amount or \$185.

The next case to be moved was the divorce action of Henry E. Green vs. Laura J. Green, with Edson A. Hayward appearing for the plaintiff and Seybolt & Seybolt for the defendant. About half a dozen witnesses were sworn for the plaintiff when, at 5 o'clock, court was adjourned until Monday next, when Justice Tutthill will return and complete the Green case. It is expected also that he will hear the following cases: James J. Hartway vs. Robert S. Palmer, Charles C. Dorn vs. William Stocking and Earl Demelt vs. the E. E. Swart Hotel company.

The trial jury was excused late Thursday, the Green case being heard by the court without a jury. The cases to be heard next week are also out of court.

It was stated late yesterday afternoon that the grand jury would be unable to complete its work this week. It is expected to sit at least until noon today and that it will resume work on Monday morning. It is hoped that it will be ready to report late Tuesday afternoon.

tally injured Sunday afternoon when the automobile he was driving ran into the barn of William Goodrich, near Deverton and another man named Campbell, who was riding with him, was so badly hurt that he may die.

Scott was said to have been speeding his car and whether he attempted to make the turn up the Beers Brook road and thus lost control or what caused the accident is not known. He had two ribs torn loose and his body was terribly mangled. Campbell's nose was laid open and his cheeks were terribly cut, so that he was in danger of bleeding to death before medical aid could be secured.

The injured men were taken back to Rock Hill and Scott died about two weeks after the accident. He was about 50 years of age and a bachelor. His nearest relative is a brother, Wallace Scott, residing up Beers Brook. This is the third fatal automobile accident to occur in the town of Walton within the past three weeks, the other victims being Mrs. Josephine Lorenz and Ray Woodburn, son of Mr. and Mrs. Robert Woodburn. The latter was killed by a fast O. & W. train at a crossing near his home.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 30c.

THE DELAWARE BUREAUS

Farm and Home Organization Holds Annual Meeting First Tuesday in November—Increased Dues Planned.

The annual meeting of the Delaware Farm and Home Bureau association will be held in the Home Economics building at the State school grounds, Delhi, Tuesday, Nov. 1st, beginning at 10:45 a. m. In the morning separate business sessions will be held by the two departments of the association. At noon they will assemble for lunch at which coffee will be served. The High school cafeteria will serve lunch for those who do not bring their dinners. In the afternoon there will be talks by a Home Bureau speaker and by S. L. Strivings, President of the New York State Federation of Farm Bureaus. Mr. Strivings has also been vice president of the American Farm Bureau Association and is one of the officers in the State League. Mr. Strivings is in close touch with agricultural conditions not only from a county and State view point but also from a national angle. He is a fluent speaker and his talk should be very instructive.

One of the big things to be discussed at the meeting is the matter of the amendment to Article V of the constitution regarding fees and dues. The Executive committee and the Advisory council have passed resolutions recommending to the members at the annual meeting that the fees of the Farm Department be increased from \$2 to \$5 per year and that membership run continuously except in case of death or written notice to the contrary to the secretary prior to Dec. 1st of any year. This will eliminate the yearly canvass by committeemen and it carried will be a great lessening in their work. Most of the counties in the state are contemplating an increased fee and several were on a basis last year, realizing that they couldn't keep an efficient organization unless it was adequately financed. Two directors for three years and one for one year will be elected to succeed A. W. North, Walton; H. W. Cowan, Hobart and Van E. Wilson, Delhi, whose terms expire this fall.
